Periodical hearings are held and the Company is yet to file a restructuring plan with the BIFR.

Assigning of Bank loans to Edeweiss Reconstruction Company (ARC):

The total borrowing of the Company from banks Viz. IOB, PNB, UBI, IB, AB, OBC, BOM, FB) led by BOI in the consortium amounted to Rs.706.66Cr. Besides this, the Company had also borrowed from Sugar Development Fund to the tune of Rs.57.47Cr. These loans were availed for the units located at Naidupet and Ambasamudram. Due to series of problems and difficulties, the Company encountered as mentioned elsewhere in this report, the Company's entire networth had eroded in the financial year 2013 and hence the Company was contemplating various avenues, such as shifting of Ambasamuram Sugar unit to Karnataka where we had made arrangements to procure a valid IEM and redo sugar business. As shifting of the Ambasamudram power unit was not possible, we explored an option to replace the existing TG boilers with CFBC boilers suitable for Coal based operations. (since Bagasse is not available as raw material) However, we had to spend Rs.100 crs for change in boilers, which would give additional EBITDA of Rs.40 crs. All these proposals could not be fructified due to financial constraints and hence the Company had been forced to become a sick Company. Some of the banks on the other hand, assigned their loans to Edeweiss ARC since the recoverability cannot be anticipated. As on the date of this report the banks comprising OBC, UBI, IB, AB and BOM have assigned their loans aggregating Rs.393.62Cr to Edelweiss ARC which constitutes 58% of total bank borrowings. It is apprised that the balance amount of Rs.313.04 Crs of the total outstanding is standing in the books towards dues of IOB, BOI and PNB and FB.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Scenario:

India is the world's second-biggest sugar producer and largest consumer next to Brazil. This industry is suffering consecutively for the last six years due to glut in production of sugar with low prices. The scenario during the year 2015-16 is reversed due to looking up prices at about Rs.30 per kg of Sugar. It has been forecasted that in the next five years, the sugar industry is expected to perform better due to growing sugar consumption, better prices and government policies. In India, the sugar production upto March 31, 2016 stood at 23.7 million tonnes, with a drop of 1.1 million tonnes less than last year. The welcome sign is that lower production along with exports brought down the closing stocks to around 7.6 million MT in 2016 from around 9.5 million MT in 2015 which is an advantage in realization of revenues for few corporates. By and large the sugar production in Tamil Nadu shall remain same during the year 2016-17. As industry is under stress, there has been a steady increase in the Fair and Remunerative Price, without any corresponding increase in the sale price of sugar. For a recovery of 9.5% per ton, the FRP has continued to rise from

Rs.2100 in 2013-14 to Rs.2200 for 2014-15 to Rs.2300 per tonne for 2015-16. But for SY 2016-17, the Government has committed to continue with the FRP of Rs.2300 per ton. Further the Central Government announced a production subsidy of Rs.45 per metric ton of cane, subject to certain conditions by sugar mills, pegging the effective cane price at Rs.2255/- MT for a recovery of 9.50%. These factors shall decide the future prospects of sugar industry in our country.

Segment wise performance:

As reported in the Boards' Report the Company has been registered as a sick Company with BIFR vide its orders dated 24.11.2014. However the segments of businesses ie.Sugar, IAP and Power were operational at minimum level during the year under review. The Sugar segment achieved a sales turnover of Rs.3440.34lacs while the IAP Rs.1836.08 lacs and Power Rs.13.40lacs.

The sugar division incurred a loss of Rs.2680.31lacs before interest and taxes, IAP division earned a Profit of Rs.72.18 lacs before interest and taxes and Power division incurred a loss of Rs.1535.78 lacs before interest and taxes. During the year under review, the Sugar unit at Ambasamudram did not function due to non-availability of sugar cane as repeatedly stated in the previous annual reports. Consequent to non-functioning of Sugar Plant at Ambasamudram, the 50MW power plant had to be shut down for want of basic raw material bagasse and also due to lack of working capital facilities from Banks, alternate fuel, coal could not be bought to run the power plant.

Internal control systems:

The company has a well-established internal control system in the form of well-documented policies, authorization guidelines commensurate with the level of responsibility and standard operating procedures, to ensure proper functioning of operations. Moreover, the company appointed an independent external internal auditors to periodically review and make continuous assessments of the adequacy and effectiveness of the internal control and systems.

The Board, Audit Committee and the Management review the findings and recommendations of the Internal Auditors and take corrective action, wherever necessary.

Financial performance

The details of financial performance and operational performance are mentioned in the Directors' Report.

Cautionary statement :

Actual results might differ materially from those either expressed or implied. Important factors that could make a difference to the Company's operations include global and Indian demand supply conditions, finished goods prices, feedstock availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries within which the Company conducts businesses and other factors such as litigation and labour negotiations. Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.
